

Take Part in the 5th Annual First Coast Parkinson's Run

Register today
FirstCoastParkinsonsRun.com

As many as 1 million Americans live with Parkinson's disease. That's more than multiple sclerosis, muscular dystrophy and Lou Gehrig's disease combined.

Approximately 60,000 Americans are diagnosed with Parkinson's disease each year, but there are thousands more whose disease goes undetected.

Incidence of Parkinson's increases with age; however, an estimated 4 percent of cases are diagnosed before the age of 50.

Parkinson's is characterized by slowness of movement, walking difficulties and tremors. It also may display non-motor symptoms, such as changes in mood and cognition, bowel and bladder problems and sleep difficulties, to name a few.

RUN to raise awareness
FIGHT the progression
CURE the disease

Welcome to the 5th annual First Coast Parkinson's Run and 1 mile fun run to raise money for the Movement Disorders and Parkinson's Program at the UF Health Neuroscience Institute – Jacksonville. The money raised from this event will benefit Parkinson's patients through increased awareness and research, as well as contribute to multiple projects including local support groups.

Your support will make a significant impact on the quality of life for those living with Parkinson's disease, as well as their loved ones. You can help us pave the way toward finding a cure, developing better understanding of the disease and creating more awareness through early recognition and diagnosis.

Donations are tax deductible through the University of Florida Foundation. Thank you for being a part of this important event.

Odinachi Oguh, MD
Assistant Professor of Neurology
UF College of Medicine – Jacksonville
